

Core Technologies and ORSeS are pleased to present

3D_Evolution Canadian Product Launch Event

Manufacturers and suppliers from the aerospace, automotive, general machinery, and military industries are facing greater demands to meet customer expectations, all while increasing profit margins. Information technology is playing a prominent role in achieving these requirements across every function of the enterprise and supplier network.

ORSeS and Core Technologies formally invite you to participate in our 3D_Evolution[®] Canadian Product Launch conference next month. Meet ORSeS and Core Technologies and learn how our solutions are being implemented worldwide. There is no cost to attend this event. If you would like to attend a Webcast before the launch please contact either orses@orsesinc.com or m.sinnamon@coretechnologies-inc.com immediately.
